

Deck it right the first time.™

RAILING

COLLECTION

fiberondecking.com

**The decking may get top billing,
but it's the railing
that steals the show**

It's the first feature to be noticed, and the one that leaves the most lasting impression. You lean on it during casual conversations. Grasp it as you descend the stairs. Even use it as an impromptu table. The right railing complements your space as well as your style. And always provides a solid, safe surround.

Browse these pages to find everything you need to create your ideal railing system: designer colors, elegant profiles, and plenty of infill options. All easy to maintain, built to last, and sure to draw rave reviews.

SYMMETRY RAILING

Strong is stylish

Designed to impress, Symmetry™ Railing is the ideal balance of looks and strength. The satin finish is elegant yet durable. Three outstanding color choices make it easy to coordinate your railing with your home or deck. And with its clever sub-rail reinforcement and innovative, low-maintenance composite construction, Symmetry Railing will remain strong, sturdy, and beautiful for years to come.

An exceptional rail for your exceptional space

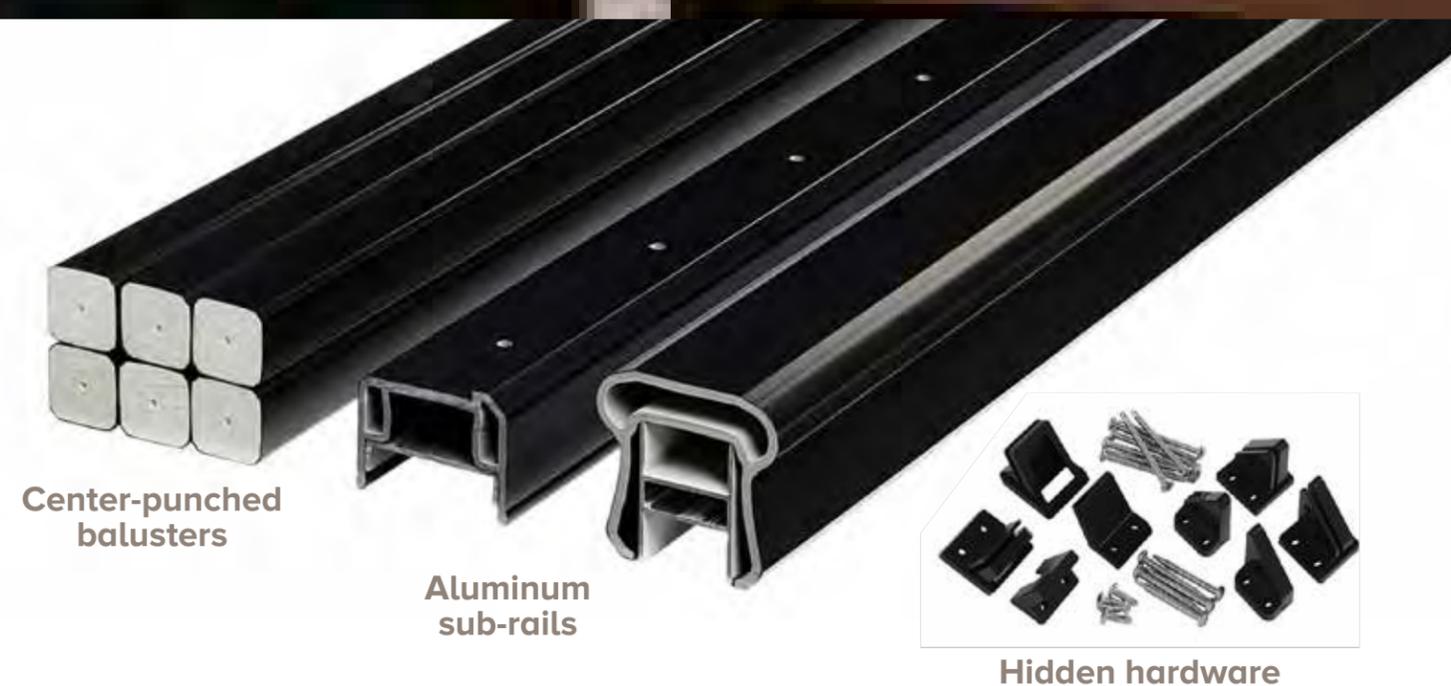

- Satin finish adds understated elegance; composite construction ensures lasting durability
- Reinforced top rail and 5x5 post sleeve provides strong, sturdy feel
- Longer rail spans (up to 12 ft.) enable better sight lines
- Sculpted top rail features flat center portion, an ideal spot to rest your drink
- Hidden hardware keeps the look clean

Improved design for faster, easier installations

- Aluminum sub-rail adds strength and stability, allowing for longer rail spans and fewer required rail posts
- Center-punched balusters enable easier screw alignment
- Side installation method for balusters saves time
- Pre-drilled rails ensure code-compliant baluster spacing
- Bottom rail and top sub-rail (H-channel) include pre-drilled holes for angled installations
- Kits available in 6 ft., 8 ft., 10 ft., and 12 ft. lengths for both line and stair applications
- Brackets for both line and stair applications are included in every kit, eliminating the need to order these separately

HORIZON RAILING

Engineered for enjoyment

Horizon® Railing is designed for those who appreciate a custom space, and want the free time to enjoy it. Made from premium composite materials and available in a range of colors and infill options, Horizon lets you create a surround that's safe, stylish, and so easy to maintain.

Ready for anything

- Drink-friendly flat top rail is perfect for entertaining
- Permanent bonded finish protects against moisture, stains, and UV rays
- Heavy-duty metal mounting brackets work in various line, stair, and 45° angle configurations
- Pre-routed rails ensure code-compliant spacing of metal and composite balusters
- Pre-routed dagger system reduces baluster installation time

To view available configurations, turn to page 18.

GOOD LIFE RAILING

Safety made simple

Good Life Railing offers the ultimate in easy-to-install, easy-to-maintain composite railing. From its classic design and color to its convenient packaging (everything you need is in one box), Good Life Railing is the reliable, hassle-free choice for a safe, solid, and very stylish surround.

Living the Good Life is easy

- Low maintenance composite saves time; lower price point saves money
- Eco-friendly composite core and durable PVC coating ensure lasting performance
- Classic rail design and color complements almost any home
- Easy installation makes it DIY-friendly
- Conveniently packaged components simplify ordering process

To view available configurations, turn to page 18.

DECK & RAIL LIGHTING

Post Cap Light

Side Post Light

Riser Light

Accent Light (Bronze only)

Enjoy your space long after dark

To add instant ambiance, highlight a special spot, or increase safety on the stairs, choose Fiberon® lighting. All of our lighting is made from rust-free aluminum, powder-coated for a long-lasting finish, and uses low-voltage, eco-friendly LED bulbs.

Lighting Components	Description	Colors	Dimensions	Wattage
Post Cap Lights	Translucent acrylic lens shines a soft, warm light.	White, Bronze, Dark Walnut and Black	Fits 4 in. x 4 in. post sleeve	1 Watt
Side Post Lights	Light shines down the post.	White, Bronze, Dark Walnut and Black	3.5 in. diameter	1 Watt
Riser Lights	Rectangular light is recessed into riser or fascia board.	White, Bronze, Dark Walnut and Black	Face plate is 2-3/4 in. x 4-1/2 in. Lens is 1-1/8 in. x 3 in.	N/A
Accent Lights	Circular light that installs flush into deck board.	Bronze	1 in. diameter	.35 watts

Choose your infill

Infill can dramatically change the look of your railing. Whether you prefer classic or modern design, or want something to maximize a spectacular look, Fiberon offers plenty of high-quality options that are long lasting and low maintenance.

Composite Balusters

Available with either a square or beveled edge, composite balusters add classic appeal to any space. Fiberon offers composite balusters in colors to match or complement all Fiberon railing lines.

Round Metal Balusters

Round metal balusters appear to recede from view. Their shape and composition add contemporary flair, yet never detract from the surroundings. Available in versatile black.

ClearVisionSystem

Have an outstanding view? Make the most of it. The Fiberon ClearVisionSystem® features 65-inch-wide clear, acrylic panels that fit into either black or white channels. ClearVisionSystem is compatible with all Fiberon railing lines, and is the ideal choice for waterfront or mountainside settings.

Please note: ClearVisionSystem is approved for use only with decks no higher than 30 inches above ground.

Add some extras

Need to improve accessibility?

Fiberon makes it easy to build a handrail that meets the requirements of the Americans with Disabilities Act (ADA). Handrails are available by special order in 104-in. lengths that can be connected using available ADA joiners. Products will work with Symmetry, Horizon, Natural, and Good Life railing lines.

Colors: White/Black/Brown; gloss finish only.

Components include: round handrail kits; wall return kit; straight wall return kit; bracket kit; 90-degree corner; end loop; post return; joint rings; rail end caps; wall return cover plates; and 90-degree insert corner brackets, adjustable joiners and straight joiners.

Love the look of curved railings?

Fiberon recommends Bugh, Inc. for curved railings. These master craftsmen can bend any Fiberon railing to help you create a one-of-a-kind masterpiece. All projects are custom. Lead time is 3+ weeks.

Want to add a gate?

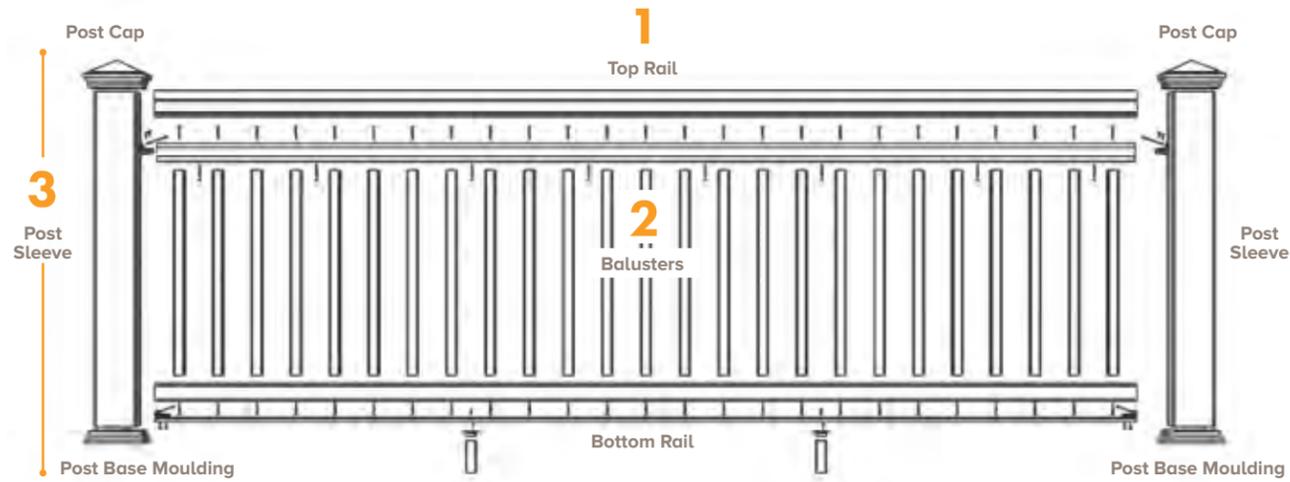

Bugh, Inc. offers professionally made, pre-assembled custom composite gates to match Fiberon Horizon, Symmetry, and Good Life railing lines. For the dedicated DIYer, a Universal Composite Gate Frame Kit is also available.

All products are available to ship nationwide. Please note: Gate products are for decorative purposes only.

3 simple steps to your ideal railing system

The difference between rail kits and sections

Fibron railing is sold in kits or sections. Rail Sections include balusters whereas rail kits do not.

Here's a quick rundown of your options:

Symmetry Railing

- **Rail Kits** include top and bottom rails (either routed or unrouted) and mounting hardware. They are available in all three Symmetry Railing colors and in various lengths.
- **Rail Sections** include top and bottom rails (routed only), beveled balusters, and mounting hardware. They are available in various lengths, all in white.

Horizon Railing

- **Rail Kits** include top and bottom rails, mounting hardware, and square baluster inserts (although you can use other balusters or infill). They are available in all four Horizon Railing colors and in various lengths.
- **Rail Sections** include top and bottom rails, mounting hardware, baluster inserts, and either composite balusters or metal balusters. The sections are available in white only, and in various lengths.

Good Life Railing

- **Rail Sections** are available in white. The sections include top and bottom rails, mounting hardware, and matching white composite balusters. Various lengths are available. Rail kits are not offered for Good Life.
