

STORM & SCREEN DOORS

RIGHT INSTALL. RIGHT FEATURES. RIGHT LOOK. ANDERSEN.

Andersen offers a full line of storm doors that add instant beauty to your home and improve the efficiency of your entryway. Designed to deliver performance, convenience and easy installation, our storm doors offer the peace of mind you've come to expect from Andersen.

INSTALLATION INNOVATION

Andersen® Pro Install System is the only installation system designed specifically for professional installers. Our professional install system offers an increased level of flexibility and job-site customization to accommodate a wide range of door openings. Andersen storm doors featuring Rapid Install systems make installation easy by eliminating the need to cut and reducing the amount of tools and assembly time required. **Look for the installation system icon when reviewing storm door options.**

- Specifically designed for professional installers
- Increases level of flexibility and job-site customization
- Top mount design
- Extended length 81" Z-bars
- Handle holes are predrilled
- Basic tools required*

- · Fastest and easiest storm door to install
- Pre-assembled for installation in about 1 hour
- No cutting, minimal drilling and virtually no measuring required
- Handle holes are predrilled
- Minimal tools required*

- Prepped for easier installation
- Installs in about 2 hours
- · No cutting and virtually no measuring required
- Universal handing design allows either left- or right-hand installation
- · Only basic tools required*

- Requires additional steps when compared to Rapid Install systems
- Universal handling design allows either left- or right-hand installation
- Basic tools required*

CHOOSE YOUR STORM DOOR STYLE AND VENTILATION OPTIONS

Select from over 30 door styles featuring Full-Lite, ¾ Lite or ½ Lite glass, decorative lower panels or grille options. Interchangeable storm doors provide seasonal ventilation when the insect screen is in place. Self-storing storm doors offer convenient anytime ventilation.

FULLVIEW FIXED OR INTERCHANGEABLE

FULLVIEW DOORS Let in the maximum amount of light and air while beautifully framing your entry door.

FULL-LITE SELF-STORING

FULL-LITE DOORS Let in an abundance of light while also benefiting from convenient anytime ventilation without having to remove a glass panel.

34 LITE SELF-STORING

¾ LITE DOORS Enhance your entryway by choosing optional grille and decorative lower panel options

ANYTIME VENTILATION

1/2 LITE INTERCHANGEABLE **OR SELF-STORING**

1/2 LITE DOORS Traditional styling possible with optional grille and multiple decorative lower panel options.

SEASONAL VENTILATION

Fullview fixed doors have a nonremovable laminated glass panel that offers a weathertight seal and added security all year long without an insect screen option.

Fullview interchangeable doors allow for the most ventilation with an interchangeable insect screen and glass panel. Carefully store the panel not in use.

Dual vent doors feature one-hand operation with smooth-gliding glass that allows anytime ventilation from the top, bottom or both sections simultaneously.

Single vent doors provide anytime ventilation with a retractable insect screen that disappears into the top of the door frame when not in use.

Dual vent doors are easy to operate and allow anytime ventilation from the top, bottom or both sections simultaneously.

Single vent doors provide anytime ventilation with either a retractable insect screen or a permanent screen with glass panels that easily raise or lower.

1/2 Lite interchangeable doors provide seasonal ventilation with snap in/out glass and insect screen.

Single vent doors provide anytime ventilation with a retractable insect screen or a permanent insect screen with glass panels that easily raise or lower.

CHOOSE THE LOOK YOU WANT

Choose from available glass, color and hardware offerings based on the style and ventilation option of the door selected. Available options vary by door. For a complete list of features and options by door model, see pages 18–19.

CONVENIENCE. INNOVATION. PERFORMANCE.

We design our storm doors to make your life easier. With convenient features like our push-button bottom closer, owning and operating an Andersen® storm door is a breeze. Combined with our EMCO® storm door collection, Andersen has the styles, options and features to fit your needs.

CONVENIENCE

These innovative features make Andersen® storm doors easy to select, easy to operate and easy to enjoy.

QUICK-RELEASE GLASS/INSECT SCREEN CHANGE SYSTEM

Change your full glass panel to your full insect screen in seconds with our patented quick glass/insect screen system. See page 8.

SLIDEAWAY® RETRACTABLE INSECT SCREEN

Enjoy convenient anytime ventilation with a retractable insect screen that hides in the top of the door frame when not in use. See pages 10, 11, 12 and 13.

PUSH-BUTTON BOTTOM CLOSER

Tap the button with your toe to hold the door open and keep your hands free.

Available on all Andersen storm doors.

TILT-IN GLASS

Glass panels tilt in for easy cleaning. See page 10.

TRUSCENE® INSECT SCREEN

For beautifully unobstructed views, choose a TruScene® insect screen. It's made with a micro-fine stainless steel mesh and provides more than 50% more clarity.* See page 10.

FLIPAWAY" HANDLES

Handles swing out of the way for easy cleaning. Available on all Andersen® storm doors.

SPLINELOC® INSECT SCREEN

Has 3x more holding strength than our standard insect screen and a minimal center mullion bar for maximum durability.* Image is for demonstration purposes only. Do not stand on insect screen. Standing on the insect screen may damage the product and is not covered under the Limited Lifetime Warranty.

See page 8.

KEYABLE LOCKS

Match your Andersen® storm door lock to a **Schlage®** or **Kwikset®** entry door lock to eliminate the need for an extra key. An additional key cylinder purchase may be required. Rekeying should be done by a professional locksmith. Please call the Solution Center Hotline at 800-933-3626.

PERFORMANCE

An Andersen® or EMCO® storm door can improve the energy efficiency of your entranceway.

CLEAR GLASS

Tempered glass is **5x stronger** than regular glass. Also available in decorative patterns on select models.

LOW-E CLEAR GLASS

Low-E glass reflects radiant heat back toward the home for **29% more energy efficiency** than clear glass.** Available on select models.

INSULATING GLASS

Dual-pane insulating glass offers **enhanced energy performance.** Only available on Contemporary Deluxe Fullview interchangeable door. Low-E Insulating glass is also available. See page 8.

LAMINATED GLASS

Permanently sealed for added security, laminated glass offers **impact resistance and increased UV protection** to help resist fading. Only available on Contemporary Deluxe Fullview fixed door. See page 8.

^{*}Compared to Andersen® aluminum insect screens.

^{**}Comparing center glass values of standard glass with Low-E glass. Glass tint is exaggerated to indicate placement of Low-E coating.

HOW TO MEASURE YOUR DOORWAY

Door frame

(jamb)

W2

Exterior

W3

Sill

door trim

(brick mould)

Andersen® and EMCO® storm doors simply attach to the exterior trim of an existing entry door. Find the door size you need by following these easy steps or by viewing our how-to video at **stormdoorcentral.com/measure**.

Н

HEIGHT

Measure for height (H) from the sill to the underside of the exterior trim at the top of the door.

Record your door height.

WIDTH

Measure the width at the top (W1), center (W2) and bottom (W3) of the door opening. Use the shortest measurement when ordering if they vary.

W2 Record your door width.

For double doors, order two doors and double-door kit.

SELECT DOOR SIZE

Use the sizing charts below to select a door size. Be sure to verify space requirements for the door you select.

Record the door size you need.

Right Handing Left Handing (As viewed from exterior)

STORM DOOR SIZE CHART

Andersen® and EMCO® doors												
Door Size	Width Range	Height Range										
30"	29-%" to 30-%"	Rapid Install 1 & Standard Install:										
32"	31-%" to 32-3%"	80" to 80-7/8" for all door sizes*										
34"	33-%" to 34-%"	Rapid Install 2:										
36"	35-%" to 36-3%"	80" to 81" for all door sizes										

The actual door slab dimension will be approximately 3/4" less than the door size. (E.g., on a 36" door, the slab is 35-1/4" wide.)

EMCO

*84" height available on the Andersen Contemporary Series Fullview Interchangeable Rapid Install 1, 36" white

Questions about measuring or for more information call 1-800-933-3626 or visit us online at stormdoorcentral.com.

VERIFY SPACE REQUIREMENTS

Verify the minimum space requirements on your existing door frame to make sure that your new storm door will fit.

DIMENSION A

• Minimum of ¾" (1.91cm) required for all storm doors except for the Economy Series, Traditional Deluxe Store-In-Door and Contemporary Deluxe Fixed Fullview, which require 1" (2.54cm)

DIMENSION B

- Minimum of 1" (2.54cm) required
- For openings less than 1" but greater than 34", order optional narrow mount kit for proper installation

DIMENSION C

• Minimum of 2 1/2" (6.35cm) required

TOP VIEW

NEED A CUSTOM SIZE?

Custom sizing only available with Clear Glass storm doors.

Custom size ranges for each brand										
Door Size	Width Range	Height Range								
Andersen Custom	27-7/8" to 38-3/8"	72" to 84-%"								
Andersen Custom XL	27- ^{7/} 8" to 42"	72" to 96"								
EMCO Custom	27-7/8" to 38-3/8"	75" to 84-1/8"								
EMCO Custom XL	38- ⁷ / ₈ " to 42"	79" to 91"								

To qualify for Andersen Custom XL sizing, only one of the following conditions must be met:

- Width of opening must exceed 38-3/8" or
- Height of opening must exceed 84-7/8"

Andersen Custom XL must be specified RH or LH. Ask an associate for details. For openings up to 1" wider than those listed, order an optional Z-bar extender kit. Kits are also available for double-door installation for all models and colors.

ANDERSEN® FULLVIEW DOORS STORM DOORS BY DESIGN

The Storm Doors by Design program, with the exclusive features of the Andersen® Fullview Contemporary Series storm door featured on page 7, gives you unlimited design flexibility with the most frame color, glass design and hardware options. This allows you to create a personalized storm door that fits your home and your needs. Choose from 8 door colors, 13 glass options and 10 hardware options.
