

VELUX®

The No Leak Skylight™

Manual "Fresh Air" Skylights

Deck and Curb-Mounted

Bringing light to life™

Why Skylights?

Daylight

Natural sunlight is a powerful healer, germ killer, and relaxer. Not only is there a great connection between daylight and health, it also helps balance the light in any room to reduce glare. And when we bring daylight into our homes through skylights, it decreases our dependency on electricity and gives functionality back to our space. We often ask, "Why skylights?" But with endless reasons to install them, the question becomes more "Why not skylights?"

Fresh Air

Fresh air is beneficial in many different ways. It's both mentally and emotionally stimulating and has the powerful capability to completely revitalize our overall well-being. When you combine the power of fresh air with natural light by installing a VELUX Manual "Fresh Air" Skylight, you're opening your home to crisper, cleaner air and all its benefits. Designed to release stale, trapped air from your home while bathing it in rich, natural light, our skylight reduces your dependency on central air and electricity to freshen and brighten your home.

A Must-Have for Any Home

You can breathe new life into your home when it's warm, inviting, and full of light. And the best way to add these qualities to any space is through your fifth wall. Just look up: your most unnoticed, yet impactful wall in any room is ready to become your next great design space. Change more than just your wall color, transform the look and feel of your entire home with skylights.

Ambient Light

Light reflects off walls and floors to give your space a soft, glowing look and feel.

Ventilation

Opening your skylight helps purify your entire home with fresh air.

Quality

Put through rigorous research and testing, this skylight is guaranteed not to leak.

Privacy

Your skylight looks up, protecting your home's privacy down below.

Lower Electric Bill

Turn off more lights in your home by soaking up free light from above.

Unique Design

Add the finishing touch by pairing your skylight with designer blinds.

Meet your skylight.

The Uniquely Essential Skylight

Watch your space fill with natural daylight and fresh, clean air with Manual "Fresh Air" Skylights.

1

Clean, Quiet & Safe Glass

Neat® glass is exceptionally smooth, reducing water spotting, and is the quietest, safest glass to put above your head.

Go Solar

Add a solar-powered blind to this skylight to receive a 30% federal tax credit on product and installation. Estimated savings of \$850!

2

Manual Operation

No need for costly wiring or electricity: this skylight easily opens and closes manually with VELUX control rods.

3

The No Leak Promise

The No Leak Skylight carries a 10-year installation warranty, plus 20 years on glass and 5 years on blinds and controls.

4

Fresh Air

With the turn of a rod, the skylight opens to ventilate your entire home with fresher, cleaner air.

5

Finish Your Look

With many blind options to choose from, you can easily match your skylight's look to the décor below.

Go Solar. Save big!

Part of VELUX's goal in becoming the world leader in skylights has been to put to excellent use our most abundant natural resource: sunlight. By developing and manufacturing environmentally friendly products that allow daylight and fresh air into your home, we're helping reduce electricity dependency. And when you "Go Solar" by bundling certain products, you can really work to lower your carbon footprint!

Go Solar with VELUX to reduce your energy consumption and actively fine-tune the climate inside your home as the seasons change. By going solar, you can exchange artificial light for natural light and cut ties with those high energy bills.

Go Solar Cost Savings:

Includes fixed skylight, factory-installed solar blind, and a free VELUX ACTIVE with NETATMO Gateway¹

Safest Glass to Live Under

Clean, Quiet & Safe

When selecting a VELUX Manual "Fresh Air" Skylight, rest assured it comes with our most-recommended, top-rated glass: Clean, Quiet & Safe. Named for its three biggest benefits, this glass comes with state-of-the-art, energy-conserving LowE glass, designed to keep your home warmer in the winter and cooler in the summer.

Clean: Skylights stay virtually spotless with Neat® glass coating designed to decompose any dirt or debris.

Quiet: Reduces unwanted outside noise by up to 25% compared to a standard double pane glass and up to 50% compared to a plastic skylight.

Safe: Unlike tempered, this glass does not shatter into pieces when cracked, a building code requirement for all out-of-reach applications.

ENERGY STAR certified products are the most straightforward way to help meet energy codes.

Most VELUX residential products are ENERGY STAR certified in all 50 states. By specifying or using ENERGY STAR certified products, architects and builders can use windows and skylights to bring much-needed daylight and fresh air inside, creating more attractive buildings and livable spaces while still meeting the local energy codes.

3 Layers of Protection

The No Leak Skylight

- 1 Pre-attached Seal**
Pre-attached deck seal (deck-mounted) or gasket (curb-mounted) provides a tight seal for leak-proof installation.
- 2 Adhesive Underlayment**
Adhesive underlayment for secondary water protection against the harshest weather conditions.
- 3 Engineered Flashing**
Engineered flashing for easy installation and primary water protection.

Bringing light to life™

NOTICE: ALL GLASS MAY BE SUBJECT TO UNEXPECTED AND SPONTANEOUS BREAKAGE in rare circumstances due to imperfections in the glass that are undetectable during the manufacturing and inspection process by the manufacturer of the glass and VELUX.

VELUX offers the choice of laminated or tempered glass skylights. Impact glass and comfortplus glass are all types of laminated glass. Comfort glass is a type of tempered glass. Laminated glass is a combination of two or more glass sheets with one or more interlayers of plastic (PVB) or resin. In case of breakage, the interlayer is designed to hold the fragments together. Tempered glass does not contain an interlayer to hold the fragments together. Instead, tempered glass is designed to break into small, pebble-like pieces. When tempered glass breaks, pieces of glass come loose and may strike an individual.

CONSULT LOCAL REGULATIONS AND/OR BUILDING MATERIAL CONSULTANTS TO DETERMINE WHICH TYPE OF GLASS IS RIGHT FOR YOU OR IF LAMINATED GLASS IS REQUIRED IN YOUR APPLICATION.

VELUX®

The VELUX Group creates better living environments with daylight and fresh air through the roof. The VELUX product program contains a wide range of roof windows and skylights, along with solutions for flat roofs. The Group also supplies many types of decoration and sun screening, roller shutters, installation products, products for remote control for installation in roofs. The VELUX Group, which has manufacturing companies in 11 countries and sales companies in just under 40 countries, represents one of the strongest brands in the global building materials sector and its products are sold in most parts of the world. The VELUX Group has about 10,000 employees and is owned by VKR Holding A/S, a limited company wholly owned by foundations and family. For more details, visit velux.com.
