

ENTRY DOOR REPLACEMENT

THERMA TRU[®]
DOORS

DO IT ONCE.
DO IT RIGHT.

Do it once. Do it right.

The Process is Simple...

From coordinating an initial appointment to settling your final balance, our staff is trained to make your replacement project as easy as 1-2-3!

1. In-Home Estimate

Let our knowledgeable professionals guide you through your home improvement project. We will assist you in determining what products meet your individual needs, style and budget, give you an in-depth product demonstration and present you with a written proposal that is valid for 30 days.

2. Professional Installation

When choosing C&L Ward®, you have selected skilled, trained, and certified home remodeling experts. Next, our Installation Professionals will arrive when scheduled to install the quality products you have purchased. We also clean up and dispose of old materials and debris.

3. Peace of Mind Guarantee

Now just sit back and enjoy the beauty, comfort and peace of mind that goes along with knowing you have the highest quality products installed by specialists! Our Peace of Mind Guarantee provides you with many years of worry-free beauty, comfort, and performance. We guarantee it!

GUILD QUALITY Satisfaction Scorecard

We would like to get your feedback on the C & L Ward experience you had when you purchased our products for your home. Please rate our service and satisfaction on a scale of 1 to 10 (10 being the highest).

How satisfied were you with the quality of the display and information provided at our showroom? 1 2 3 4 5 6 7 8 9 10

Thinking about the In Home Consultant's Visit to your home, how satisfied were you with:

- the time you or home Consultant took to understand your needs? 1 2 3 4 5 6 7 8 9 10
- the professionalism of your In Home Consultant? 1 2 3 4 5 6 7 8 9 10
- the product knowledge of your In Home Consultant? 1 2 3 4 5 6 7 8 9 10

Did your In Home Consultant call or visit you during the following the installation of your products?

Overall, How satisfied are you with your C & L Ward In Home Consultant? YES NO 1 2 3 4 5 6 7 8 9 10

Thinking about the installation, how satisfied were you with:

- the amount of time between ordering and the installation team? 1 2 3 4 5 6 7 8 9 10
- the professionalism of the installation team? 1 2 3 4 5 6 7 8 9 10
- the condition of your home following the installation? 1 2 3 4 5 6 7 8 9 10
- the condition of your home following the installation? 1 2 3 4 5 6 7 8 9 10

Overall, how satisfied are you with the manner in which the C&L Ward installers did their job? 1 2 3 4 5 6 7 8 9 10

Overall, how satisfied are you with the products installed by C&L Ward? 1 2 3 4 5 6 7 8 9 10

Overall, how satisfied are you with your overall C&L Ward experience? 1 2 3 4 5 6 7 8 9 10

If you had another home improvement project, how likely would you be to use C&L Ward again? 1 2 3 4 5 6 7 8 9 10

- ☐ Garage Door Replacement ☐ New Gutters ☐ Siding Replacement
- ☐ Window or Door Replacement ☐ Gutter Cap (No More Leaks) ☐ Storm Shutters

Your opinion is important. The following results from previous customers helped improve our service to you. Thank you.

Our Commitment is Your Complete Satisfaction

When We Finish Your Installation, We've Actually Just Started

To make sure you are completely satisfied with our work, you will receive a Satisfaction Survey from Guild Quality. It will enable you to grade our performance and your level of satisfaction with our company.

Service After The Sale

Long after your project is completed, C&L Ward is here to provide you with years of worry-free support. As a member of the Andersen Dealer Service Network, our staff of in-house service technicians is ready to service your products should the need ever arise. Rest assured, help is just a phone call away.

For As Long As You Own Your Home

Peace of mind. Many companies promise it; however, few really deliver it. At C&L Ward, all of our window and door installations are backed by a written workmanship guarantee. Should a problem ever arise due to the quality of our installation, C&L Ward will correct the problem at no cost to you, for as long as you own your home.

Experience The C&L Ward Difference

Our services go beyond sound advice and the guaranteed lowest prices. As a family owned company with nearly 50 years of expertise, we are committed to providing you with exceptional service and unsurpassed craftsmanship for you and your home. See for yourself the difference our standards for quality and service will make in your project experience.

Peace of mind. Many companies promise it; however, few really deliver it. At C&L Ward, each of our installations are backed by a written workmanship guarantee, for as long as you own your home.

Because of the length of time in business and our low complaint history, C&L Ward has been awarded the prestigious A+ Rating by the Better Business Bureau®.

Our interactive showroom experience enables you to appraise the look, feel and function of many of our products before making final decisions.

Dedicated service & repair department that provides after-the-sale service on all C&L Ward project installations as well as servicing our other products when in need of repair.

We are classified as a preferred installation company for our products. Our team is trained and certified by product manufacturers and industry associations.

Proud member of GuildQuality®, a customer satisfaction surveyor. We maintain a 95% Satisfaction Score in both Quality of Materials and Quality of Workmanship.

Committed to Exceptional Service

Your satisfaction is our top priority. For more than 100 years, our employee owners have been committed to providing exceptional customer service. From our product experts, who can offer a wealth of knowledge, to our easy ordering tools, we help to make selecting your new door system an enjoyable experience.

Finishing Touches

From beginning to end, we pay close attention to detail. Our trained employees proudly craft each door, and complete the look with a beautiful hand-applied finish. Palmer-Donavin offers 30 popular stock paint colors, 14 rich stain colors and custom paint color matching to complete the look for your home. All backed by a 10-year warranty.

Why Therma-Tru® Doors
Uncompromising quality,
inside and out.

#1 Among Building Pros

It's a brand you can trust. Why? Because year after year, building professionals rank Therma-Tru #1 – as the brand they prefer most – in entry doors.*

Experience & Know-How

Behind every Therma-Tru door stands decades of experience and technical know-how. Therma-Tru makes or recommends every aspect – from the glass to the hinges – to bring your home durability and reliability through the years.

Lifetime Limited Warranty

When you pay close attention to every detail that goes into a door, you can

stand behind its parts longer than the rest.

That's why your Therma-Tru fiberglass

door system is backed with a lifetime limited warranty – the industry's most comprehensive warranty of its kind.

Energy Efficiency

More than 80% of Therma-Tru door and glass options are ENERGY STAR® qualified and National Fenestration Rating Council (NFRC) certified, helping save money on energy costs.

Front Cover: Fiber-Classic Mahogany Collection, Low-E Glass with SDLs, Door – FCM4813, Sidelites – FCM2000SL, Transom – 19220T, Finish – Mulberry, Door Surround – TDS-FLTFLT, Fypon

*Brand Use Study, 2021 *Builder* magazine.
Note: See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions, and ENERGY STAR qualified products.

The Power of Curb Appeal

Open the door to increased value with a stylish new Therma-Tru door. A new entry door can pay for itself – and then some – giving you and your customers more bang for your buck. Learn more at thermatru.com/curbappeal.

Perceived Value
A smart investment, a new Therma-Tru® entry door can increase a home's perceived value by **4.2%** or **\$18,750** on average.*

Return On Investment
Homeowners who choose a stylish new Therma-Tru® entry door can see **more than 2 times** the return on their investment.*

A smart investment.

Lifetime Limited Warranties

We stand behind more parts and for longer than other door companies because we make or specify everything that goes into our door system. A Therma-Tru fiberglass door system is backed by the industry's most comprehensive lifetime limited warranties.

Energy Efficiency

In any region or climate, energy efficiency is key. More than 80% of Therma-Tru door and glass options are ENERGY STAR® qualified and National Fenestration Rating Council (NFRC) certified, helping save money on energy costs.

Quality Testing

Our doors, glass and components are held to high standards. We conduct thorough testing to help ensure that our products will live up to a homeowner's toughest quality and performance expectations.

*Not based on actual home sales. Not a guarantee of investment returns, increase in value or selling price. Based on a nationwide survey of consumers' estimates of perceived home value based on exterior appearance. Results may vary based on region and home style. Therma-Tru's "National Home Valuation Study" was commissioned by Therma-Tru in 2015 and conducted by TNS, an independent provider of internet-based research. Note: See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions, and ENERGY STAR qualified products. Top Right: Smooth-Star, Axis Glass, Door – S1652, Sidelite – S1652SL

Trends

Home design trends will continue to blend together as we unlock our imaginations to create a variety of unique looks for the front entry. Therma-Tru's exciting new products bring together form, function and lifestyle trends that allow today's design-savvy homeowners to create exteriors that reflect their personal style while ultimately making them feel more at home.

A Complete Door System

A Therma-Tru® door with genuine Therma-Tru parts is more than just a beautiful door. It's a complete door system – from the glass to the hinges – made to perform as good as it looks.

1 Removable Weatherstrip
Our resilient design compresses when closed and springs back when open. It's protected by a durable jacket for long-lasting sealing power.

2 Hardware
Choose from beautiful options that will complement the look of your home and help bring you security and peace of mind.

3 Ball-Bearing Hinges
Hinges with ball-bearings protect each hinge pivot, offering added support and stability to help keep your door opening and closing smoothly.

4 7-Shape Corner Seal Pads
(Inswing Only) This innovative design creates a protective air pocket that helps prevent a vacuum from wicking moisture up the weatherstrip.

5 Composite Adjustable Sills
These allow flexibility to adjust the sill cap vertically to close gaps, helping to maintain a tight seal between the sill and the bottom of the door.

6 Dual-Bulb / Dual-Fin Bottom Sweep
(Inswing Only) Two bulbs compress to sit tight against the sill, while two fins act like walls to form barriers and a built-in rain deflector pushes moisture away.

7 Mullion Options
Mullions not only give the hinges and lock a place to anchor, they come in a range of sizes from 1"-3" in width per mullion to help create an entry door system to fit the opening of your home.

Tru-Defense: The Ultimate Protection

We manufacture or specify every aspect of a complete door system. The Therma-Tru® genuine components in a Tru-Defense door system are our premium options for long-lasting durability.

Double Your Peace of Mind

When it comes to door systems, we believe that proper installation is just as important as having the best components. A Tru-Defense door system installed by a Therma-Tru Certified Door System Installer doubles your reimbursement eligibility should an issue arise.* Look for the (🛡️) icon.

Levels of Reimbursement		
System Components	Reimbursement Eligibility	Reimbursement Eligibility with a Certified Installer
Latch & Deadbolt (No Sill Pan)**	\$250	\$500
Latch & Deadbolt with Sill Pan**	\$500	\$1,000
MPLS (No Sill Pan)	\$1,000	\$2,000
MPLS with Sill Pan	\$1,250	\$2,500

Baseline components required to qualify for the Tru-Defense Warranty Rider.

*The Rider does not warrant workmanship of anyone who assembles or installs a Tru-Defense door system, including Therma-Tru Certified Door System Installers, nor any damages caused by improper handling, assembly or installation.
**Latch and deadbolt must meet Therma-Tru specifications.
Note: See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions, and ENERGY STAR qualified products.

EnLiten™ Flush-Glazed Designs

For Classic Craft®, Fiber-Classic® & Smooth-Star® Doors & Sidelites

Simplified beauty. Resilient designs. With clean lines and seamless construction, EnLiten flush-glazed designs are perfect for today's homes. Built for long-term performance, these doors and sidelites feature the sleek looks homeowners want and the stylish around-the-home solutions they need. Look for the (🔹,🔸) icons.

Front Entry

Utility Door

Patio Doors

Front Entry

See the difference.

EnLiten flush-glazed designs provide a simple profile with no added embellishments around the glass.

Flush-Glazed Glass with Detailed Sticking 🔹

Flush-Glazed Glass with Square Sticking 🔸

Lip-Lite Frame

Maximum views.

Create an airy, open feeling in the home with larger daylight openings. EnLiten™ flush-glazed designs offer up to a 16% increase in visible glass area than conventional lite frames.

Flush-Glazed Glass

Lip-Lite Frame

*Comparison of U-factor values of a flush-glazed full-lite door and a Lip-lite full-lite door, both with Low-E glass.
**Must be installed as part of a Therma-Tru door system in compliance with a Therma-Tru product approval. Impact-rated products not available.
Top: Classic Craft Fir Grain, Geometric Glass with SDLs, Door – CCA2300XG, Sidelites – CCA2400XGSL
Right Page Top Left: Fiber-Classic Oak Collection, Low-E Glass with GBGs, Door – 2150, Finish – Raven
Right Page Bottom Left: Smooth-Star, Internal Blinds, Doors – S2600
Right Page Right: Fiber-Classic Mahogany Collection, Chord Glass with SDLs, Door – FCM4814XC, Sidelites – FCM2000XCSSL, Transom – 19220T, Finish – Acorn, Door Surrounds – TDS-FLTFLT

Durable by design.

Double- or triple-pane glass is built directly into the door with a high-performance dual adhesive weather seal. This delivers a clean seamless look with no lite frame or screw plugs, and reduces the potential for air and water infiltration, among other benefits.

Superior Sound Dampening
Doors with flush-glazed glass do a better job of dampening outside noise compared to a Lip-lite alternative.

11% More Energy Efficient
The Low-E glass used in flush-glazed doors delivers a clear view and is 11% more energy efficient than 1/2" Low-E glass in a Lip-lite frame.*

Withstands Winds Up to 167 mph
Door systems with flush-glazed glass are designed and tested to withstand wind forces up to 167 mph (DP-50).** (ASTM-E330)

Warranty riders for peace of mind.

EnLiten™ Flush-Glazed Rider for Construction & Installation
Provides protection in case of accidental glass breakage during residential and multi-family construction or installation. Therma-Tru will replace the flush-glazed fiberglass door or sidelite.

EnLiten™ Flush-Glazed Rider for Homeowners
Provides protection in case of glass-related failures due to manufacturer defect. Therma-Tru will furnish \$300 toward installation and replace the flush-glazed fiberglass door or sidelite.

Finish Right at C&L Ward

Leave the work and time of staining or painting your new doors to our finishing craftspeople in our own exclusive prefinish shop. Our complete seven step finishing process will bring out the true beauty of your doors to last years in your home. All you have to do is choose the desired finish. Our design professionals will help select from several different Sherwin-Williams® stains and a rainbow of paint colors to provide that one-of-a-kind look for your home.

Why Choose Our Process?

- ✓ When we're done, you're done
- ✓ No odors or fumes in your home
- ✓ No disruption to your daily routine
- ✓ No worries about a mess or spills
- ✓ No excess materials to dispose of
- ✓ No time off work or wasted weekends

True-to-Wood Origins

Revel in the handcrafted look and feel of a premium fiberglass entryway with true-to-wood origins. Discover exquisite textures with grains hand selected from the finest natural wood species and meticulously recreated with our revolutionary AccuGrain® technology.

Fir Grain

Formerly Classic Craft American Style

Designed to echo the grain of the largest species of American Hemlocks – the Western Hemlock tree – found in lush coastal rainforests of the Pacific Northwest.

Walnut Grain

Crafted to reflect the prized hardwood of the mighty Black Walnut trees, these doors feature a horizontal grain with natural movement accented by delicate arches and cathedrals.

Mahogany Grain

Formerly Classic Craft Mahogany & Rustic

Derived from the finest African and Honduran Mahogany, blending rustic influences with exotic roots to build upon the rich history of one of the most renowned woods in the world.

Oak Grain

Designed to emulate the unique characteristics of Red Oak trees, embodying the look and feel of one of the most popular wood grains of all time.

Canvas

Inspired by the world's most exquisite masterpieces and designed with the architectural character of finely sanded wood.

Industry-leading warranties for peace of mind.

Uniquely designed by Therma-Tru, Classic Craft complete entryway systems are backed by an industry-leading 1x transferable lifetime limited warranty from the entry door brand building professionals choose most.* This comprehensive lifetime limited warranty can be transferred one time to a new owner, should you ever sell your home.

In addition, Classic Craft entryways with our handcrafted and professionally applied PrismaGuard® premium stain or paint are backed by a transferable 10-year limited finish warranty – Therma-Tru's best. The balance of this finish warranty can transfer to a second owner.

Learn about our industry-leading warranties at www.thermatru.com/warranty.

*Brand Use Study, 2020 *Builder* magazine.
Note: See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions.

Classic Craft entry doors are rated a *Consumers Digest* Best Buy for their exceptional warranty, quality of materials and construction, and resemblance to a real wood door.

Premium construction, inside and out.

Highlighting the best of craftsmanship and innovation, Classic Craft® premium entryways boast impressive, well-designed features and remarkable construction. The inner workings of each Classic Craft door lay the foundation for exceptional strength, security, energy efficiency and long-term performance you can depend on for years to come.

Engineered for Moisture Protection

Features composite top and bottom rails and solid hardwood edges for increased moisture and rot protection all the way around the door.

Designed with Authenticity

Features construction identical to wood doors with narrow stiles and rails, and flush-glazed glass options that are more than 10% wider* to welcome more natural light into the home.

Tested to Withstand Mother Nature

Designed and rigorously tested to withstand and protect from the damaging effects of harsh weather conditions.

Therma-Tru® Door Frame

Created specifically for Thermo-Tru doors to deliver an entire entry system designed and engineered to work together to resist leaks and drafts, and help maintain energy efficiency and weather resistance.

Designed for Long-Term Performance

Features fiberglass skins that are 46% thicker* for added durability and better long-term performance.

Triple-Pane Construction

Most decorative, privacy and textured glass panels are enclosed between tempered glass, offering superior quality and thermal performance.

Crafted for a True-to-Wood Appearance

Revolutionary AccuGrain® technology replicates authentic natural wood textures for a look and feel that is virtually indistinguishable from real wood.

Built for Strength and Security

Constructed with a 4" wide board of engineered lumber that runs the full length of the locking side of the door for a solid natural wood feel that makes Classic Craft doors 50% stronger and 30% heavier.*

Constructed for Energy Efficiency

Built with a high-performance polyurethane foam core that is four times more energy efficient than wood.**

*Comparison of Classic Craft to other standard fiberglass doors with similar styles. Visit www.thermatru.com for details.
 **Comparison of R-Values of fiberglass to wood doors (both without glass).

Simulated Divided Lites (SDL)

Removable Grilles (RG)

Low-E Glass

In cold weather, Low-E glass reflects the heat back inside to help keep your home warm.

In warm weather, Low-E glass reflects the sun's rays off of the glass to help keep your home cool.

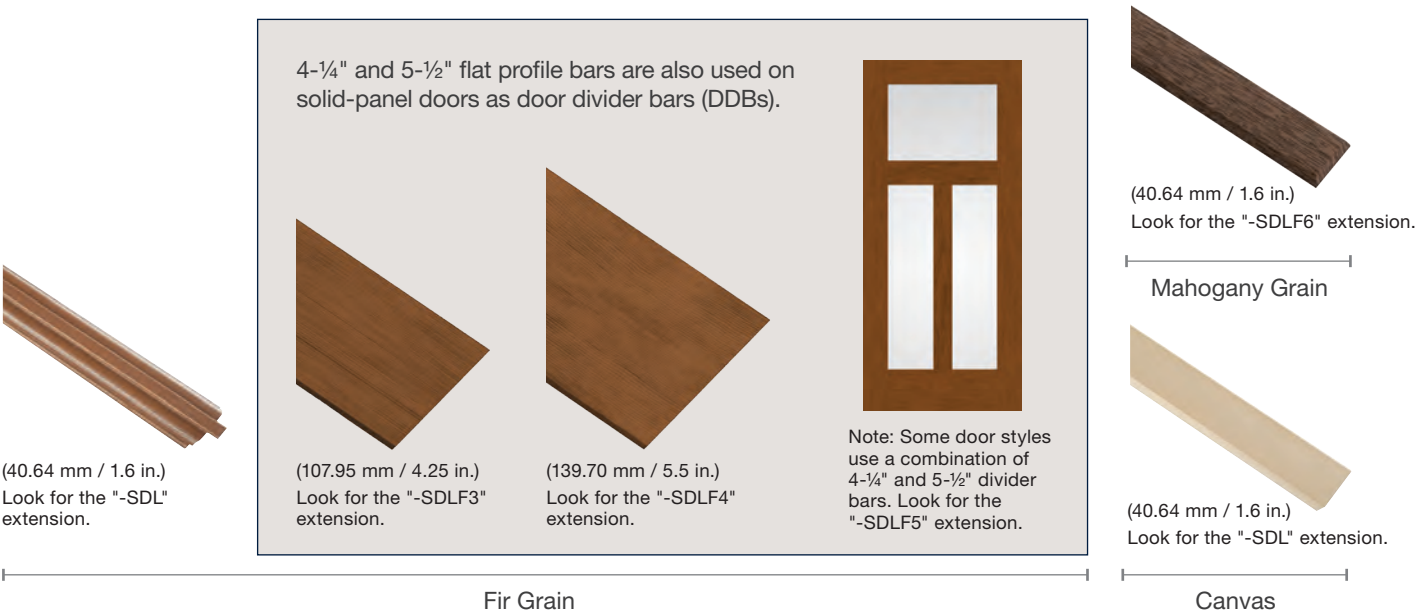

Divided Lites

Enhance the beauty of any home with divided lites for entry and patio doors. Increase curb appeal by coordinating with window grid patterns for a cohesive look that suits the home's architectural details.

Simulated Divided Lites (SDLs)

Wood-grained or smooth SDL bars adhere to the interior and exterior panes of tempered glass and can be stained or painted to complement the door and home.

Removable Wood Grilles

Removable wood grilles snap on and off the interior pane of tempered glass for easy cleaning. Can be stained or painted to complement the home décor.

Fiber-Classic® & Smooth-Star® Door Options

Fiber-Classic® Doors

Get the look and feel of rich Mahogany or warm Oak with excellent performance and value.

Fiber-Classic® Mahogany Collection™

Fiber-Classic® Oak Collection™

Smooth-Star® Doors

Get a smooth surface for plenty of color options with exceptional performance and value.

Smooth-Star®

Door Construction

Fiber-Classic® & Smooth-Star® Doors

- 1 Weather Resistance**
Composite rails protect the door at the top and bottom edges to help block moisture that can wick into doors.
- 2 Security**
An enhanced lock block combined with a 1-¼" engineered lumber lock stile increases rigidity and stability.
- 3 Durability**
With very little maintenance, a fiberglass door can bring a home years of durability. Unlike wood, fiberglass will not warp or rot. And, unlike steel, it will not dent or rust.
- 4 R-Values**
Built with a polyurethane foam core, Therma-Tru fiberglass doors insulate against cold and heat for exceptional energy efficiency, offering up to four times the insulating R-Value of wood.*

*Comparison of fiberglass to wood doors (both without glass).
Note: See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions, and ENERGY STAR qualified products.

Low-E Glass

In cold weather, Low-E glass reflects the heat back inside to help keep your home warm.

In warm weather, Low-E glass reflects the sun's rays off of the glass to help keep your home cool.

Note: Andersen® is not covered under Therma-Tru's warranty. See www.andersenwindows.com for warranty information. Entry doors can be ordered to match the color of the storm door. Discuss options with your sales representative. Finish colors may vary from actual application due to fluctuations in finishing or printing.

Frame Options & Accessories

Premium Paintable and Stainable Option

Frame shown in Stained Woodgrain

Choose DuraTech white, woodgrain, and fir for a low maintenance option that has custom color abilities. With a UV resistant topcoat and a DuraFrame core, this waterproofed jamb protects your entryway from the elements and everyday wear.

Vinyl Film Warranty: 10 Year
Prefinish Warranty: 10 Year

Frame shown in DuraTech White

Choose from these options:

White Stipple
Paint this option any color, or leave it unfinished to match PrismaGuard 112 Alpine.

Woodgrain
Stain or paint the woodgrain option to match your door. Unfinished jamb voids GM Wood warranty.

Fir
This stainable and paintable option is recommended for use with the Classic-Craft American (Fir) Collection.

Casing Trim Profiles

Our DuraFrame unfinished option is made of a rot resistant wood, finger-jointed to the bottom of premium red pine. We will not professionally paint or stain the exterior of this jamb option. For a low maintenance entry, it is recommended this option is ordered with cladding, or the user chooses one of the options above.

Note: Colors vary due to printing. Please make color choices using product samples. View all product warranties at palmerdonavin.com.

Entry Door Installation Tools

Tru-Loc™ Door Installation Anchors

Great solution for installing doors with sidelites, where the access to screwing through the frame is limited. Comes standard on prefinished units with FrontLine Cladding or DuraTech Jamb.

Recommend:

6/8 Unit - 6-Pack

8/0 Unit - 8-Pack

Squaring Pole

Door installers' guide to accurately installing and replacing entry doors.

- 1. Measure the door from corner to corner, diagonally.
- 2. Adjust the length of the pole to fit tight by loosening the wing nut, then tightening again once the pole is secure in the diagonal of the door.
- 3. Make sure the end blocks of the Squaring Pole fit tight in corners.
- 4. If the measurement of both diagonals is equal, then the door is square.

Therma-Tru® Door Systems

Independent Laboratory Performance Testing

At the time of manufacture, Therma-Tru exterior door systems (properly assembled with all genuine Therma-Tru components) have been tested under one or more of the following performance specifications: structural load, uniform load deflection, vertical load resistance, air infiltration, water penetration resistance, forced entry resistance, operating forces, force to latch, deglazing resistance, operating cycle performance, impact resistance, sound transmission, thermal performance and solar heat gain performance. Therma-Tru exterior door systems conform to the applicable Performance Standards / Test Methods that may include ANSI/AAMA/NWDA 101/I.S.2, AAMA/WDMA 101/I.S.2/NAFS, AAMA/WDMA/CSA 101/I.S.2-A440, ASTM E330, ASTM E547, ASTM E283, ASTM E331, ANSI/BHMA A156.2, AAMA 1304, AAMA 920, AAMA 925, ASTM E2068, ASTM F842, ASTM E987, ASTM E1300, ASTM E90, ASTM E413, ASTM E1332, ASTM E1886, ASTM E1996, PA/TAS 201, PA/TAS 202, PA/TAS 203, HUD UM89, AAMA 1702.2, 24 CFR 3280, 24 CFR 3282, NFRC 100 and NFRC 200. Refer to www.thermatru.com for design pressure and other performance ratings.

Doors

Recommended Door Overhang – For best performance, all doors should be protected by an overhang. The recommended size is half the distance from the base of the door to the bottom of the overhang. So, as an example, a distance of 10' for this dimension would require an overhang of 5' minimum. For wetter climates, southern or western exposures, and for double doors, the overhang should be the same as the distance from the base of the door to the bottom of the overhang. In this same example, the dimension is 10' so the overhang should be 10'.

For best performance, double doors to be used in areas with severe weather exposure must be installed using entry alcoves or large soffit overhangs to protect entry unit from exposure. Multi-point locking systems are highly recommended for 8'0" and double door applications.

Doorlites

Doorlites are insulated, and exposed panes are tempered or laminated. Optional wood grilles available for clear doorlites and transoms.

Inserts – All glass (except flush-glazed styles) shall be bedded with glazing mastic and secured in doors with screws. Therma-Tru's SMC and BTS doorlite frames are available for most styles except where noted. SMC and BTS frames shall resist significant deformation by heat up to 200 degrees Fahrenheit, regardless of paint or stain color or placement behind a storm door.

PVC doorlite frames must be finished within 30 days of installation. Failure to do so will increase the chance for product damage of the type that is not covered by the warranty. PVC doorlite frames are not recommended for use behind storm doors or to be painted dark colors, if exposed to direct sunlight.

Decorative Glass & Wrought Iron – Each Therma-Tru decorative glass unit is handcrafted by skilled artisans replicating Old World techniques. Each piece is a unique work of art and many things that would appear to be imperfections (small bubbles, lines and waves within the glass) are normal and are part of the designs character.

Direct Set Sidelites – All Therma-Tru direct set sidelites shall utilize trim components secured and glazed in place in the door jamb.

Condensation occurs naturally in the home, caused by excessive humidity in the air. Often this harmless water vapor can be seen collecting on glass surfaces, such as doorlites. Energy-efficient glass units in Therma-Tru door systems are constructed to keep the glass as warm as possible, reducing

condensation build-up. However, there is no such thing as a condensation-free window or doorlite in high-humidity conditions.

A common attribute of true wrought iron doorlites is that a rattle sound may be heard when closing the door. This is solely a function of having real wrought iron which is heavy and has the ability to flex, moving back and forth within a narrow airspace surrounded by glass that has very little flex. This characteristic is not considered a defect or warranty issue.

NOTE: Glass privacy ratings are determined by the 1/2-lite glass size. As a result, the amount of privacy / glass transparency may be more or less than indicated by the privacy rating, based on the glass design and size of the glass that is inserted into the door, sidelite or transom.

Glass designs may differ from depiction due to the size and hand craftsmanship of glass. See your Therma-Tru seller or visit www.thermatru.com for more details.

Components

Adjustable Security Strike Plate – Proprietary adjustable type, permitting in-out adjustment of door in frame, up to 3/16".

Hinges – Minimum hinge size 4" x 4" x .098".

Ball-bearing hinges are recommended for 8'0" doors, doors using heavy lites (e.g., wrought iron), all 20-Minute Fire-rated fiberglass doors, Impact-rated doors and glass.

Use of the multi-point locking system is highly recommended for 8'0" and double fiberglass doors. Not recommended for steel doors.

Please be aware that single door units built with public access sills have little resistance to water penetration, and double doors built with these sills have a potential to leak if installed exposed to weather. We recommend that units be installed away from weather under large soffits or overhangs.

Use of a sill pan is recommended.

Fiber-Classic and Smooth-Star dentil shelves are not recommended for placement behind storm doors or to be painted dark colors, if exposed to direct sunlight.

Therma-Tru door surrounds must be finished within 30 days of installation. Failure to do so will increase the chance for product damage of the type that is not covered by the warranty.

Impact-Rated Products

Impact-rated products must be installed as part of a Therma-Tru door system in compliance with a Therma-Tru product approval. Visit www.thermatru.com for product approvals and full details on WBDR- (Wind-Borne Debris Region) / HVHZ- (High Velocity Hurricane Zone) compliant products. Follow weather and news reports in order to assess severe weather situations and obey local authorities' shelter and evacuation orders. No product guarantees safety for persons or property, nor makes any premises hurricane- or impact-proof.

Fire-Rating Performance Standards

Fire and building codes vary throughout the country and acceptance of products and labels is left to the discretion of the local authorities.

MODIFICATION OF PRODUCTS DESCRIBED IN THIS BROCHURE WHICH CARRY FIRE RATINGS (DOORS AND FRAMES) MAY VOID THE FIRE RATINGS.

Test conducted by Intertek, Warnock-Hersey.
